

Health Procedure Information Program

“Helping Consumers Make Informed Decisions”

Being advised by your doctor that you or a family member need to have a test or a surgical procedure done should raise questions. *What does this test or procedure involve? What facility should I use? Do I have additional options? What will it cost?*

Informing the Consumer

Our job is to assist you by providing the information needed to answer your questions. As an educated consumer you have an opportunity to make informed decisions regarding your family’s healthcare.

Sample Cost Estimator

Gallbladder Removal Using Scope				
Where you seek care:	Ambulatory Care Center (Clinic)		Inpatient Facility (Hospital)	
	In-Network	Out-of-Network	In-Network	Out-of-Network
Anesthesia	\$607.42	\$1,215.00	\$607.42	\$1,215.00
Surgery	\$879.97	\$3,000.00	\$879.97	\$3,000.00
Radiology	\$41.99	\$97.00	\$266.60	\$306.00
Medical/Professional	\$50.99	\$90.00	\$239.97	\$563.00
Lab	\$37.72	\$100.00	\$37.72	\$100.00
Facility	\$500.00	\$1,000.00	\$6,939.67	\$14,656.12
Estimated Total	\$2,118.09	\$5,502.00	\$8,971.35	\$19,840.12

How Does The Program Work?

1 When your doctor recommends a non-emergency test or surgery, ask your doctor to write down the complete procedure. Then provide the information to us. You can call us, or fax/email us using the phone numbers or email address below.

Our office will send you valued information on the procedure, provide you with a cost estimate, and include additional questions you may want to discuss with your doctor prior to scheduling the procedure.

2

3 Together, you and your doctor can then make an informed decision about when and where to have the procedure done.
